Middle School Math Summer Work

Over the summer you are to continue practicing essential math skills by completing the skills recommended to you on IXL. You are expected to reach a smart score of at least 90 on each skill that is under your recommendation tab.

There will be a new skill assigned for each day and students will be responsible for completing them all at a reasonable pace.

You will be graded on the progress you have made on each skill. This will count as a quiz grade when school resumes.

*Not for new students.
You will receive access to this program only when you begin school.

"The more that you read, the more things you will know. The more that you learn, the more places you’ll go. ~ Dr. Seuss"
Title: Travel Team

Author: Mike Lupica

Describe the setting of the novel. Write in complete sentences.
Remember the setting is the environment in which a story or event takes place. Setting can include specific information about time and place (e.g. Boston, Massachusetts, in 1809) or can simply be descriptive (e.g. a lonely farmhouse on a dark night). Often a novel or other long work has an overall setting (e.g. a Midwestern town during the Depression), within which episodes or scenes occur in different specific settings (e.g. the courthouse). Geographical location, historical era, social conditions, weather, immediate surroundings, and time of day can all be aspects of setting.

How did the setting affect the story?

Write two vocabulary words critical to the understanding of the story. Using context clues define the words. Cite evidence from the text.
1.

2.

Describe the protagonist. Cite evidence from the text to support your description.
(use direct and indirect characterization)

What connections can you make with this book? (text-to-self, text-to-text, text-to-world)
